Testimony SB 319 Senate Transportation Committee

Mr. Chairman members of the committee for the record I am Barry Stang Executive Vice president of the Montana Motor Carriers Association. MMCA and it members would like to go on record in strong support of SB 319 which would remove size, weight and load restriction violations from being recorded on your Motor Vehicle Record (MVR).

The recording of these violations on an MVR came to our attention shortly after the 2007 session when we received a call from a member in the Kalispell area who renewed his insurance only to find out that this violation had appeared on his record and his insurance company used it to double the cost of his insurance. In previous years even though it has been a statue this violation rarely showed up on the driving record, but as the department has upgraded their records and came into better technology they began to appear.

A more recent case occurred in Broadus Montana when a fuel truck that had been measured in Billings was found to be 5" over length when it reached Broadus. The driver had made no adjustments and since it had passed in Billings he had no knowledge that it would fail in Broadus. Not knowing that this would go on his record he plead guilty and paid the fine as most drivers do as it cost them more to return and fight a citation than to pay it. Only when his employer ran his MVR did he know that it had been placed on his record.

Asking to have these citations removed was a long debate of the MMCA legislative committee but in the end it was decided that in most cases these violations are not the drivers fault but the fault of the company they work for.

MMCA Board of Directors would like your support to remove these violations from drivers records. It is my understanding that removal of these records will not jeopardize Federal Funds. FMCSA will still be able to follow companies who violate these rules and sanction them if they are repeat offenders. It should also be noted that SB 319 does not remove the fines for these violations only the recording of it on an MVR.

You can access the bond schedule on the internet at <http://courts.mt.gov/lcourt/books/2006bondbk.pdf>

Title 61 begins on page 48 and ends on page 100 most of over length and weight information is from page 90 on.

I will be available to answer any questions.

Barry Stang
